

Store orders vs payment processor, 1 August to 1 September 2026

Two exports that should agree: every difference with both values, and a bridge from one total to the other

ORDERS THAT SHOULD BE PAID	RECONCILE	DIFFERENCES
1,034	1,022	15

Rules agreed before counting

- Key: **order_id** in both files. Orders **paid** or **refunded** should have a payment; **cancelled** ones none.
- The order total must equal the payment amount, in the same currency; a difference of 0.01 or less counts as matched.

The fifteen differences

What went wrong	Order	Store	Processor	Difference
Order paid, no payment	SO-10717	195.61	—	−195.61
Order paid, no payment	SO-10927	284.00	—	−284.00
Order paid, no payment	SO-10988	200.00	—	−200.00
Order paid, no payment	SO-11061	291.82	—	−291.82
Amount differs	SO-10104	345.66	333.16	−12.50
Amount differs	SO-10588	182.86	162.86	−20.00
Amount differs	SO-10690	79.73	76.38	−3.35
Amount differs	SO-10920	409.66	397.16	−12.50
Amount differs	SO-10974	223.40	222.50	−0.90
Charged more than once	SO-10157	254.90	254.90 + 254.90	+254.90
Charged more than once	SO-10344	474.97	474.97 + 474.97	+474.97
Currency differs	SO-10086	321.01 EUR	321.01 USD	not comparable
Payment, no order	SO-19000	—	186.08	+186.08
Payment, no order	SO-19001	—	31.27	+31.27
Payment, no order	SO-19002	—	161.82	+161.82

From the store's total to the processor's (EUR)

Store: paid and refunded orders	249,511.39
Order paid, no payment	−971.43
Amount differs	−49.25
Charged more than once	+729.87
Payment, no order	+379.17
Currency differs (left out)	−321.01
Within tolerance	+0.03
Processor: EUR payments	249,278.77

What this does not check

Whether refunds reached the customer (they are in neither file); the processor's fees; whether either file is right on its own. The check is that the two files agree, and where they do not, exactly how.

Synthetic exports: a store's orders and a payment processor's payments. Every figure can be recounted from the two files. The disagreements were planted on purpose, and the code that reconciles was written by the same person who planted them: this shows the method, not a blind test.
